Jointly provided by:

August 28-30, 2024 • Denver, Colorado

Dear Industry Colleagues,

Functional and Reconstructive Urology (FRU) is a rapidly expanding subspecialty with the vision to improve the lives of all patients with urinary disorders. The **1st International Functional and Reconstructive Urology Update (IFRUU)** will be held August 28-30, 2024, at the DoubleTree by Hilton Denver Cherry Creek in Denver, CO.

The **IFRUU** will bring together urologists, APPs and other practitioners from around the world interested in functional urologic disorders. The goal of the meeting is to provide a comprehensive approach to these disorders in men and women, both neurologic and non-neurogenic.

The conference focuses on OAB, female incontinence, prolapse, UTIs, male incontinence, neuro-urology, BPH, prosthetic urology, men's health, robotics, urethral stricture, ureteral stricture, practice management, new technology, and social media.

Partnering with us through exhibit or sponsorship at the **1st International Functional and Reconstructive Urology Update** will allow you to network with an expected 80 urologists, APPS, and other practitioners along with our expert faculty in a relaxed setting that allows ample time for discussion. Industry partners and exhibits are an essential part of our meeting's success, and our attendees will be eager to learn about your company's products and services that can assist them in effectively managing patients with functional urologic disorders.

Thank you for your consideration of our request; we look forward to receiving your commitment. If you have any questions, please contact Denise Castetter, dcastetter@cjpc.com or 973-769-1020.

Sincerely,

Brian J. Flynn, MD
Program Chair

Fernando J. Kim, MD, MBA, FACS
